SUMMARY

Full Stack Software Engineer with 3+ years of experience building web applications using TypeScript, React, Express, Node.js, and PostgreSQL. Experienced in owning features end-to-end, from reusable UI components and API design to database architecture and deployment. Delivered production systems that generated a 300% increase in clients revenue.

SKILLS

Programming Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL

Frontend: Next.js, React, Redux, Tailwind CSS, Axios, Vite

Backend: Express, Node.js, Prisma ORM, PostgreSQL, MongoDB, MySQL, REST APIs

DevOps: Vercel, Heroku, Git, CI/CD pipelines

EXPERIENCE

Ascent Studio

Nov. 2025 – Present

Full Stack Software Engineer

Modesto, CA

- Replaced \$300/month SaaS tools by architecting a multi-tenant field service platform, unifying scheduling, dispatch, CRM, invoicing, and payments into one system.
- Cut missed appointments and manual follow-ups by building a custom booking platform with Twilio and SendGrid, automating SMS/email confirmations, reminders, and job status updates.
- Secured platform access across multiple user tiers by implementing JWT-based authentication and role-based access control with protected routes and API middleware.

Duct Daddy Duct Cleaning

Apr. 2025 – Oct. 2025

Full Stack Software Engineer Contract

Remote

- Drove a 300% revenue increase within 6 months by building a full-stack marketing website and custom CMS from scratch for a growing home services business.
- Improved organic search visibility by developing the CMS for SEO-optimized content publishing, enabling non-technical staff to independently manage blog posts and landing pages.
- Streamlined service scheduling by integrating Housecall Pro's booking system into the marketing site for seamless customer intake.

Bay Valley Tech

Mar. 2024 – Mar. 2025

Frontend Software Engineer Intern

Modesto, CA

- Built a text-based social media platform using React, Bulma CSS, and React Router, designing the UI/UX in Figma and developing key features including dynamic routing, profile search, and responsive layouts.
- Improved cross-device usability by developing responsive UI components and navigation systems across desktop and mobile, translating Figma designs into production code.
- Delivered production features within an Agile/Scrum process, collaborating with back-end developers on API integration and participating in code reviews, standups, and sprint work.

EDUCATION

Bay Valley Tech

2022 – 2024

Computer Programming

Modesto, CA

- Completed an intensive full-stack web development program covering frontend development, backend development, databases, APIs, and software engineering best practices.
- Earned certifications in Full Stack Web Development and completed CS50: Introduction to Computer Science from Harvard University.
